

TIME FOR CHOICE

END THE WHEAT BOARD MONOPOLY

Yet incredibly, Prairie farmers have been jailed for the "crime" of selling their own wheat to customers of their own choice.

Why?

Because of the Canadian Wheat Board monopoly.

Western farmers must sell their crops to the Wheat Board whether they like it or not.

It's time to end this archaic monopoly. It's time to give farmers a choice. It's time to let the West's economy grow.

The federal Conservative government has promised to reform the Wheat Board Monopoly.

Contact your MP today and demand they give Western farmers the same freedom as farmers in Eastern Canada. Demand they allow a dual marketing system.
